"The bigger the government, the smaller the people"

If Washington had only listened to the Tea Party ... In the recent debt debacle, Tea Parties across America supported much deeper cuts in spending – many of which would have taken place immediately rather than over 10 years, no tax increases and a balanced budget amendment. As we've always said, WE HAVE A SPENDING PROBLEM – NOT A REVENUE PROBLEM. Those fighting against true fiscal responsibility called us names and tried to silence us – *but we're here to stay!* Unfortunately, Congress did not adopt the plan supported by most Tea Party members. However, it turns out that **we were the ONLY adults in the room.**

Three days after Congress & the President RACED to reach a *pathetic compromise* in order to avoid the default & credit downgrade they warned us would be **so** devastating to the economy, S&P downgraded the U.S. credit rating anyway to AA+ from AAA. We have not had such a low rating since 1917! Why did S&P downgrade us? *Because Washington only PROPOSED \$2.1 trillion in cuts over 10 years rather than the much deeper cuts supported by the Tea Party & passed by the U.S. House in the Cut, Cap and Balance bill.* Based on this *compromise*, the U.S. will still add over \$7 trillion to our debt over the next decade!

Shame on the 'right' for caving to the rhetoric of the left & not holding firm on CCB! Shame on the 'left' for refusing to make the deep spending cuts we need, promoting class warfare and supporting a plan to increase taxes to continue funding their spending addiction. This credit downgrade is on YOUR shoulders! First and foremost, however, the blame rests on the President for failing to show ANY leadership & courage. He continually told us he had a 'plan' but refused to provide details! SPINELESS! He must be removed from office in November 2012 along with those responsible for this spending! "To preserve our independence, we must not let our rulers load us with perpetual debt."
Thomas Jefferson

You've been scammed! Did you know that our Federal Government has been on financial auto-pilot since 1974 via the use of **baseline budgeting**? **Frankly, it's nothing more than legalized fraud and we will NEVER bring the budget under control until we eliminate it!** See the link on our webpage that leads you to the baseline budget article in our [August 2011 WCTP newsletter!](#) A 'MUST READ'!

URGENT: We Must Pass a Balanced Budget Amendment

SINCE WASHINGTON WON'T STOP THE SPENDING, WE WILL STOP IT FOR THEM!

The Budget ~~on job~~ 'compromise' of 2011 requires that both houses of Congress vote on a balanced budget amendment between October and the end of 2011. It must gain the support of two-thirds of each house in order to pass but does not require the signature of the President. *Passage will require pressure from the American public and we need YOUR help to do this!* **ARE YOU READY TO HELP?** If passed, the amendment must then be ratified by three-quarters of the states (38). If given the opportunity to vote for ratification of this amendment, it will likely be the only opportunity in our lifetime to pass this monumental legislation and ensure that fiscal responsibility becomes mandated by our Constitution! Please join us in fighting for a Balanced Budget Amendment. Contact your legislators NOW!

God Bless Our Troops

Last week, 30 American soldiers were killed in Afghanistan. Although no words are sufficient to express our sympathy to their families, we want to say a heartfelt **THANK YOU** to all soldiers & their families – past, present and future. We are a free country because of YOU and we will never forget your sacrifices!
